WELCOME
Ready for an epic journey?

LOC welcomes all athletes, officials, coaches, the medical team and trail family, hoping that participation in the 2019 Trail World Championships in Portugal brings us the opportunity to re-encounter to run, fight without violence and speak the same language, in a “trail spirit” manner. Since the first edition (2011), our focus has been placed on the athletes, creating unique sensations for those who enjoy the mountains. And these are the experiences that we would like to convey.

Portugal is located in the Iberian Peninsula, in southwestern Europe. The Portuguese territory amounts to a total area of 92 090 km², comprising a continental part and two autonomous regions: the Azores and the Madeira archipelago. It is the westernmost country of mainland Europe, bordered by the Atlantic Ocean to the south and west and by Spain to the north and east. Its islands bathe in the Atlantic Ocean. The name of the country comes from its second largest city, Porto, whose Latin name was Portus Cale.
Miranda do Corvo is a historic town in Portugal, whose first royal document is from the first king, D. Afonso Henriques, in 1136. The number of inhabitants in the region in 2011 (last register) totalled 13,098. The region has an extensive historical heritage: Monastery of Nossa Senhora da Assunção, Sanctuary of Senhor da Serra, Sanctuary of Nossa Senhora da Piedade and the mythical schist village schist, Gondramaz. The maximum altitude is 1.000m.

Coimbra is a city and a municipality in Portugal. The population at the 2011 census was 143,397, in an area of 319.40 square kilometres (123.3 sq mi). The fourth-largest urban centre in Portugal (after Lisbon, Porto, Braga) it is the largest city of the district of Coimbra, a historic Portuguese city, whose first royal document dates back to D. Afonso Henriques, the first king, in 1136. Among the many archaeological structures dating back to the Roman era, when Coimbra was the settlement of Aeminium, are its well-preserved aqueduct and cryptoporticus. Apart from attracting many European and international students, the university is visited by many tourists for its monuments and history. Its historical buildings were classified as a World Heritage site by UNESCO in 2013.

The Local Organizing Committee wishes you the very best stay and great success. LOC calls for the attention of all athletes, participants and assistants to the absolute respect for the preservation of nature, following the principle.

The athletes have the opportunity to pass through a biological park (with species originating from this mountain range), an environmentally protected area (Mestrinhas park), a sanctuary (Senhora da Piedade) and a shale village (Gondramaz).

PREVENTION ACTION CONCERNING HEALTH POLICY

In accordance with rule 53.1 of the IAAF Competition Rules, a preventive health related action(*) is set up for the Trail World Championships. This action aims to strengthen the medical supervision and the safety related to the specificities of trail running races. This action is managed jointly by the IAU and the ITRA, in collaboration with the Association AFT (Athletes For Transparency). This action is led by a Medical Commission composed of 3 doctors, who are the race Medical Director and two doctors designated by ITRA’s Health Commission. They can take advice from the experts of their choice.

Each runner agrees to:

1. Declare the following information to the Medical Commission:
   - any medical history and/or pathology in particular those which may increase risk during the sport
   - the regular use of treatments and medicines during the 30 days prior to the start of the race
   - all requests or use of a substance or method subject to a Therapeutic Usage Exemption (TUE).

   The declaration of this information to the Medical Commission is made through each runner’s ITRA health space that each runner can create free-of-charge on the ITRA website:
   [http://itra.run/page/381/Mon_espace_sante.html](http://itra.run/page/381/Mon_espace_sante.html)

2. Submit any urine, and/or blood, and/or hair, and/or saliva samples required from 30 days before the competition and up to 7 days after the competition and the associated analyses requested by the Medical Commission, on the understanding that the costs for the sampling and analysis are covered by the Organization.

3. Not to participate in the competition if glucocorticoids have been used, without any relation to the mode of administration and therefore the presence or not of a TUE, within the 7 days before the start of the competition. The use of glucocorticoids may be identified in the context of the analysis carried out, either from a direct dosage or in the case of an abnormally low cortisol.

4. Accept the use of strictly anonymous data for research purposes. Each participant has a right of access, rectification and opposition to data concerning him/her. The Health Commission is the authority with which the participant can exercise this right.

5. Answer any meeting request on site or remotely (phone or videoconference) that the Medical Commission may ask for in order to discuss their ability or not, to participate in the competition. As a result of the meeting, in accordance with rule 144 of the IAAF Competition Rules, the Medical Commission may declare a “no start” to the runner for health reasons. The medical information declared on the health space and the results of analysis are accessible only to the Medical Commission and the medical team of the race. Any unreasonable breach, refusal, or transmission of erroneous information in connection with the health policy can result in the runner’s exclusion from the competition.

* This action has neither the vocation nor the competence to be substitute for national and international regulations concerning anti-doping.
